"functions" was changed to --- functions, originally active vocabulary ---

ALLOWABLE SUBJECT MATTER

4. Claims 31-50 are allowed.

5. The following is an examiner's statement of reasons for allowance:

Upon close review of the claims, the prior art and applicant's remarks it appears that the allowance of claims 31-50 is appropriate. The prior art does not teach memory storage means for storage of operational inputs, control inputs, voice recognition vocabulary for storage of command match and execute functions, and originally active vocabulary. The distinction between the current application and prior art is that normally the vocabulary for command match and execute functions and the active vocabulary are stored separately.
